Dimensions
Diameter 5.5 inch
Weight 134.04 oz

Popularly over telephoto lens that offers an excellent combination of focal length and handling. A lens designed to deliver a high contrast image and features the quiet AF motor and performance Vibration Reduction II to combat the effect of camera shake at slow shutter speeds, and practical close focusing capabilities. Designed for digital, this lens includes a Nano Crystal Coating, ED glass and rounded diaphragm blades to produce images full of detail with excellent out of focus.
