Camera Technology Digital

Dimensions
Diameter 5.5 inch
Weight 134.04 oz

However, for telephoto lens that offers an excellent combination of focal length and handling. A new optical design delivers a smooth contrast, and features a quiet AF motor and performance Vibration Reduction II to combat the effect of camera shake at slow shutter speeds, and practical close focusing capabilities. Designed for digital, this lens includes a Nano Crystal Coating, ED glass and rounded diaphragm blades to produce images full of detail with excellent out of focus.
