Method prof.Stephana Ihde (Switzerland) used more than 20 years in the world and is available with us. BCS implants are among the most advanced implant systems manufactured in Switzerland (IHDE DENTAL). Patients within 72 hours receive implants and teeth. This method is very interesting for the jaw or lack of bones where other implant systems can not succeed. Why is this method safe and guarantee eternal ?! Because implants “love” for the basal bone, talking about the bones that are not absorbed from the jaw bones that remain. It is a non surgical “flap”, opening the gingiva, which makes minimally invasive surgery.
