New alternative to Cushion Grip thermoplastic denture adhesive Comfort Lining Thermoplastic Denture Adhesive EX is the best replacement product to Cushion Grip thermoplastic denture adhesive. Comfort Lining is a soft pliable thermoplastic denture adhesive that replaces the paste denture adhesives such as Fixodent, Super PolyGrip, Secure denture adhesive and denture reline kits. Comfort Lining Thermoplastic Denture Adhesive EX is free from all harsh chemicals including benzene, zinc, acrylic that all other denture adhesives have in their products to allow them to adhere or stick to the dentures. Comfort Lining is heated up in a aluminium tube in hot water for five minutes for the product to become pliable enough to adhere to your dentures, then after the denture adhesive cools it will set to your dentures for a secure long lasting fit. Using a hydrologic like cushion to grip between your gums and the dentures alleviating pressure and soreness from the dentures, for happy gums. For more details on Comfort Lining, please feel free to visit our website. [Http://www.comfortlining](http://www.comfortlining)
