Nanny Neen - Leaving your child in capable, caring and confident company. I am a 27 year old British female professional who prides myself on the passion and commitment towards the children in my care. I have worked in a variety of childcare settings for 10 years, progressing in positions throughout my career. My last role was a manager in a large scale setting. I have vast experience in working with children of all ages, needs and abilities. I am now available for both advanced and ad hoc babysitting, nannying, cleaning and tutoring bookings. I hold a clear DBS, childcare qualifications, first aid, SEN and a driving licence. Please call for further information. 'No need to worry at all, No job too big or small';
