Car & Van Servicing at competitive prices for Palmers Green, Tottenham, Arnos Grove and Wood Green
 Conveniently located just off the North Circular, Palmers Green Service Centre offers all makes and models car, van and light commercial vehicle servicing

It is important to keep your car or van serviced regularly. Most manufacturers recommend having your vehicle serviced at least once a year, or after every 12000 miles. At Palmers Green Service Centre we offer a comprehensive range of service schedules, with prices starting as low as £82 for an Interim Service. Having your car or van serviced helps to maintain the major mechanical parts of your van or car, including making sure your oil and other fluids are topped up to the required level. This can help to reduce the risk of breakdowns and prolong the life of the car or van.

A standard service is recommended annually or every 10,000 miles. This includes a 50 point check, if your vehicle is still under warranty you may still be able to have your car service carried out by Palmers Green Service Centre as all our parts are of equivalent quality to the original manufacturer to comply with the block exemptions regulations 1400/2002. However, customers with the vehicle still under warranty are advised to check with warranty provider if still in doubt.

Book your service online now with one of our expert technicians - enter your registration number above to get your service quotes
