

VueJS Laravel Admin Template

Location

London, London

<https://www.freeadsz.co.uk/x-545799-z>

VueJS Laravel Admin Template is first admin template with combination of both Laravel and VueJS 2 with Bootstrap4 without JQuery. It utilizes many vue components like vuex, vue router and axios and premium plugins that makes it applicable in a variety of domains. Vue Admin has not only admin applications but also Laravel Starter in it. By using laravel starter, new laravel applications can be easily developed. Vue Admin is a modern, multipurpose and unique template with many powerful features.

VueJs Admin Template is based on VueJS 2 that makes the customization easy. It uses Bootstrap4-css for ease of application. Vue Admin Template uses multiple custom components that make the template more impressive. Even though it is based on Vue, it comes with many useful pages which are used for dashboard development and the best thing about those pages is they utilize components which are JQuery free, some of them are developed only for VueJS and some of them are written in plain JavaScript. Vue Admin has an excellent Dashboard for all administrative needs. All the administrative works like handling data and maintaining with neat and clear analysis and also task management can be easily done by using the template.

Vue Admin comes with multiple color schemes and all other color schemes are made using SASS variables. By using the SASS variables we can create a new color scheme and can be easily customized just by changing a single file. Hence all the layouts and color schemes are made easy for customization. The work can be made easy by using the plugins available in the template. And also there are many custom plugins available in the template by that any complex work can be made easy. The most impressive part of the template is having a weather widget which gets the current weather based on the location from API. The admin template provides number of well designed widgets to use in many

scenarios like mail box, tasks and weather report etc.

The VueJS Laravel Admin Template has been been designed for all the admin applications and is available for a price of \$25. It has been updated with regular intervals with advanced features. The template is already used by a number of developers and has been downloaded thousands of times. If there is any need to that you wish to purchase the template, please let us know.
