Barr and Stroud Savannah 10x56 WP Roof Prism Binoculars is ideal for bird watching, sports, travelling, nature observing and many other outdoor activities. It had a BAK4 roof prism with phase corrected to enhance contrast and correct chromatic aberration. The fully multi-coated optics with anti-glare properties improves light intensity and clear true colour view even in low light condition. With its 10x magnification, it allows observer to watch an object very closely and clearly. The long 18.2mm eye relief design offered viewer to see entire 105m field of view clearly and effortlessly. Its high rubber housed coating protects it from any damage, slip- resistant and gives an extra protection against any shock and provide a secure grip. It is purged with nitrogen to resist internal fogging and also water proof and submersible up to 1.5m for three minutes in water to perform well in all weather conditions. Its 56-74mm inter-pupillary distance make easy to adjust your eye point accurately. It had a feature of dioptre adjust for those who had a problem with their eyesight. The large center focus wheel gives an observer very smooth and accurate focusing.
