Celestron Binocular..

Location London, London https://www.freeadsz.co.uk/x-564133-z

Celestron Binoculars : Durably constructed celestron binocular that offers structural integrity along with light weight. This celestron binocular is best for enthusiasts and amateurs that prefer medium range magnifications. The 10x magnification and larger size objective lens provides clear and sharp brighter images with real life colors. The high quality BaK4 type prisms and multi coated optics offers maximum light transmission and reduce glare from the lens surfaces. Twist up eye cups with multiple position stops and higher eye relief facilitates the best adjustment to the eye glass viewers as well as non glass users. The binocular offers interpupillary distance adjustment for better individual viewing. The large size central focus wheel equipped with ridges offers easy adjustment with a finger tip movement. The binocular is best choice for hunting, wild life view, nature view and out door.
