Absolutely stunning and very beautiful top quality teacup Pomeranian girl. In very rare unique blue tan color. Very special. One of a kind XS small cute Pom. She looks unreal, like a plush teddy bear. She is 4 months old and up to date with all her vaccinations and wormings. Microchipped. She has a very lovely soft temper, she keeps herself busy playing with. But she also likes to cuddle and is very sociable and friendly. Very good and gentle with children and with pets. She is super sweet and chilled out, not barking at all. Please contact for more info, pictures and videos and for viewings. You can see her in person anytime. Available for viewing and collection immediately. Thank.
