We read, meet & discuss character-led Sci-Fi novels for grown-ups at the more literate end of Science Fiction spectrum. Anything from Atwood to Zelazny that helps us become 'Well Read in SF'.

Our books are usually from the 60's onwards & can include anything from Alternate History, Cyberpunk, Dystopian Sci-Fi, Feminist Science Fiction, 'Literary' Science Fiction, Modern novels with an SF slant, Mundane Science Fiction, New Wave Science Fiction, Post-Apocalyptic novels, Proto-Science Fiction classics, Scientific Romance, Short Story Collections, Space Opera or even 'Speculative'.
