Thunder Struck Hosting is the #1 leading hosting provider for all of your hosting needs at an unbeatable price. We have hosted over one thousand websites for the past five years and we are still going strong and we can host just about anything whether it is for a small business, large organisation or even just for personal use then your website is in good hands even with you watching over it as you get full control over any of our hosting packages with full root access. Operating a different web hosting platform from the start is definitely an intricate task. Luckily, we have some outstanding designers doing work for us and as a consequence to their support, we made our exceptional cloud hosting platform. Our cloud hosting platform is built to function within a hardware/software environment created by us. This method enabled us to build a significantly more stable platform, which is fully virus-free. For this reason, we're able to guarantee you a 100% uptime guarantee with all of our cloud hosting deals. The Hosting Control Panel represents our concept of how site management procedures should be carried out. It is a single place from where you can actually maintain your domain names and all your web sites as well as your billing transactions. From there, you can also request tech support, upgrade your hosting service, and so on. It is manufactured to live in the cloud and it's accessible with all of our web hosting solutions – cloud hosting deals, dedicated hosting servers, semi-dedicated hosting servers, Virtual Private Servers. Plus, it functions just as good with each of them – you don't need to have a dedicated server to get full edge of it. One more great benefit of the Hosting Control Panel is that it has a whole lot of great tools and bonuses, which can assist you control your websites. Our File Manager will make you get rid of any FTP clients, considering that it permits you to safely send files by simply dragging them to your Internet browser. Our Web App Installer assists you to set up more than forty popular web applications with

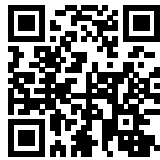

merely a click. And also Quick Site Installer can assist you to set up a customized site and take it online in a matter of minutes. In many cases, it takes less than 10 minutes to get your site online. We have a 24/7 support team waiting for you. Our tech support team is providing you with a 24/7 support team. You can leave a message and we will respond to you within 60 minutes. The usual response time is less than 20 minutes. We make an attempt to achieve the longest level of customer.
