Semi-permanent makeup models required for building portfolio.119

Location **North, Cheshire**
https://www.freeadsz.co.uk/x-571921-z

I'm looking for women who want to try out semi-permanent eyebrow makeup and help me build my website portfolio.
I'm a professional semi-permanent mobile artist based in Poynton.
What to expect on the day:
1. Analysis - I'll perform a full skin tone analysis to determine what pigments to use to achieve your desired lip color, taking your hair color into consideration. I'll take a picture for full client documentation.
2. Preparation - I'll use a guide color pencil to draw on the desired shape, measuring symmetry and using calipers to perfect your measurements. I will ask you to confirm that everything is correct before we begin. After contour topical anesthetic is applied to the area, to minimize any discomfort.
3. The Procedure - The procedure takes usually between 60-90 minutes. You may feel a little scratchy sensation but this will be short-lived as the anesthetic starts to do its jobs. When I finish I apply aftercare and take another one after procedure picture.
4. Top Up - You will need to have a top-up appointment to check the shape and color of your healed lips and take care of any adjustments. This takes place only when the skin has healed: usually 4-6 weeks from the initial procedure. An additional charge of £10 will be applied.
For more information contact me on my email click to contact Thank you. Justyna
