Lost, out in the cold

My young cat Charlie is missing from home since the 6th March. We are all very distressed. He has been neutered and microchipped. We have been in touch with all the vets and rescue centers, put posters up, and been round all the neighbor's houses with details about him (although most are one first name terms with him) and we have walked for miles searching for him and calling his name

He is a dark colored tabby with some white on his face and tummy, he has a white chest, He also has a Pink nose (sometimes slightly grubby) and a rather long tail. He has no collar on We live in Calow Chesterfield next to The White Hart Inn

REWARD FOR SAFE
