Laura Loves Lashes is a mobile eyelash service located in Cardiff.

I use individual lashes to lengthen, and add thickness to your own natural lashes. I use Synthetic-Mink lashes, which are incredibly light weight & natural. They are applied with great care by attaching one synthetic lash to 1 natural lash.

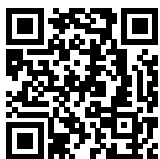

I am trained in Russian volume lashes which is a specialised application technique that are great for mature clients or clients with finer lashes as it creates a natural look and are very fine and light weight, therefore putting less weight on the natural lash. I also offer classic lashes, infills and removal lash services. All new clients are required to have a lash consultation and patch test to determine which lashes would be recommended to you, and make sure that you are not allergic to any products I use within the treatments. Lash consultations & patch tests are both free of charge and I am happy to travel to your home for your convenience.

Please get in touch if you would like to ask any further questions or to book your consultation & patch test.

I look forward to meeting you and being your NEW lash tech!

Thank you

Laura
