

Lovely Chingford based gardener available to maintain local gardens

Location **London, London**
<https://www.freeadsz.co.uk/x-578229-z>

Grayshaw and Yeo Gardening Company provide vetted local gardeners to gardens across London and Essex. We focus on regular garden maintenance, ensuring that your beds and borders look fantastic all the year round.

We've built a network of local, reliable and passionate gardeners and horticulturalists who'll care for your garden like it's their own. Many of our gardeners are career changers who bring a wealth of transferable skills to their work - as well as having years of experience in their own gardens. Others have worked in the horticulture industry throughout their working lives and have developed a depth of knowledge that's second to none.

The important thing for us is that our gardeners are dedicated, personable, trustworthy and enthusiastic.

We have a comprehensive interview process that ensures our gardeners have the skills required to look after, and progress, your garden, including; a plant identification test, a questions and answers session and a practical trial as well as seeking character.
