Location **Scotland, Wigtownshire**

We are looking for a pedigree staffie or crossed with a bull mastiff, mastiff, various of the bull breeds & springers between the ages of 2-6 months, age is open for negotiations for the purfect puppy.

We we already own a staffie cross puppy and are really wanting another puppy for her to love, interact with, play with, go on many walks and runs together & have copious amounts of fun. I believe that they will be the best of companions due to her nature and love for dogs of all shapes and sizes. she would truly benefit from having a fellow puppy around her 24/7.

We live in a great dog friendly area with the most picturesque views as well as many , many walks/runs/playtime which our puppy adores and i am more than sure the new addition would feel the same.

If if you have a puppy matching our criteria please don't hesitate to get in touch.
