PS 3 super slim fitted with a brand new dual lens laser, ready to use. It is in good physical condition, and comes with a power cable. It is the console on its own, 12 GB version, ready to use. It has been updated via Sony play station web site. Some minor marks on the front edge, nothing serious. Runs cool n quiet, buyer collects. No silly offer, no swaps, silly offers will not be replied to. £45 is my final lowest price.£75 on ebay in this condition. Any questions,please,
