BOSE ® L1 Compact system, Hello guys, I have an almost brand new Bose L1 Compact. I have used it only a dozens of times and I might say it is in immaculate conditions as I have always taken extra care when carrying it around. It comes with all original boxes and cases. It is an exceptional PA system with astonishing sound; I need to sell it because I am not using it very frequently these days. I bought it from the Bose Store in Regent Street (London) in September 2013. £550.00, London,.
