Service History (all documented) Saab until 65k Independent 65k â€“ 129k. Previous owner 129k â€“ 147k Me 154k â€“ 182k. Every 6-8k Recent work New direct ignition module about 5k ago. Recent Goodyear Asymmetric front tyres. Recent refurb of alloys, new wheel nuts, centre caps, bonnet and boot badges. Recent top engine mount and powerflex transmission poly bushes. New fuel filter, recent heater bypass valve, recent coolant flush and change. Gearbox oil changed at around 155k, new vacuum hoses. New O/S CV joint. Recent front brake discs and pads. New windscreen. Not so good bits! The paintwork is 13 years old and, although it isn't bad, the photos are flattering. There is no rust to speak of apart from some bubbling on the fuel flap and a little rust on the locking face of the boot lid. Some scuffs on the bumpers/spoiler and stone chips on the bonnet (see picture). The rear heated seats do not work. MOT advisory items â€“ Slight play in both rear top suspension arm outer joints. Rear brake disc wear and corrosion. The advisory items will probably need doing by the next MOT in March 2016. 'Get me home' spare DI module, spare engine mount, spare used halogen headlight bulbs, Haynes manual and a few spare bits and bobs included. I have really enjoyed owning and driving this car but we had to replace it with an estate. I would have bought an Aero estate but I couldn't find one locally. I would have no hesitation in buying another Aero, it has been a great car and will be missed. £1,495.00, Shrewsbury, 07042692565. Call: 07042 ... Click to reveal number!
