beautiful male rabbit, Male, 3-6 months, black, and tan , Pepper is a beautiful un-neutered male rabbit. He is around 5 months old and was bought as a female companion for my rabbits, however it turns out he is a boy so I cannot keep him. He is quite friendly and will tame up with attention. He is living in a shed and run outside but is good at using his litter tray so would be able to be a house rabbit. He is a cross rex and netherland dwarf and has very pretty markings. He has the petite ears of the nethy but is as big as a rex. He will come with some food. £10.00, Pontypool,.
