Very Cheap Web Design in Cheshire!, I am a solo website designer who specialises in the quick turnaround of small beautiful websites for small business / individuals. I am based in Cheshire and am not an expensive media company! I offer simple, very professional looking websites with/without webstores, turned around quickly. I can design websites for any industry, with my experience being in the automotive and product retail industry. I am happy to offer websites to tradespersons, service providers, models, artists and small / medium businesses selling anything online. I can handover to the owner afterwards, and leave them with a very maintainable website afterwards (anyone who can use facebook can then update their website!) My prices start at £250.00 Please drop me a line to discuss your requirements further, if you want someone reliable to just get on with designing you a website that looks like it costs £10000, within a week. Many thanks, Sandbach,.
