Wanted. A Working HP Laser Jet 2100/2200 series Parallel Port Printer please?, Wanted. A Working HP Laser Jet 2100/2200 series Parallel Port Printer please?=====My existing HP Laser Jet 2200D model Parallel Port Printer is, sadly, on itâ€™s way out, so I am wondering, as it is such an old model now, whether anyone has an old working one, that they probably donâ€™t use now, that they â€™mightâ€™ consider selling?For those that may be young enough to remember; I use the Printer for WordPerfect for DOS printing, as well as for more up to date e-mails and the like.I look forward to the possibility of a favourable response in due course and thank you for taking the time and trouble to read this advertisement, which is gratefully appreciated.Ray.,,,
