Carrera Vulcan Ladies 18" Frame 26" Wheels, Carrera Vulcan Women's Mountain Bike If you're looking for a bike that can easily take on some light trails as well as getting you from A to B in a stylish way, look no further than the Carrera Vulcan Women's Mountain Bike. Easy to control, the Vulcan is bound to impress you with its Suntour XCM HLO front suspension fork (which has an awesome 120mm of travel) and powerful Clarks EXO hydraulic disc brakes. Topped off with 24 speed gears and 26" wheels for stability and a smooth ride. Frame: Lightweight aluminum Forks: 120mm Suntour Front suspension fork for smooth suspension Gears: SRAM 24 speed rapidfire gears for easy cycling on the flat and uphill Brakes: Clarks hydraulic disc brakes for self-adjusting stopping power Wheels: Large 26" wheels with CST MTB tyres for better grip Never used. Bought last October as a first bike, sat on it outside and it's not for me. Can not ride a bicycle. £260.00, Glasgow,.
