Walmer's Seeds - Tomato Seed Multi-Pack - 5 Different Varieties., Pot & Container Tomatoes Multi-Pack - 62 Seeds Minimum F1 Sweet 'n' Neat Cherry: The habit is determinate, but the fruit production is ongoing! 60 days to maturity from setting out transplants. Determinate habit, but produces fruit all season long. Here we go -- this fabulous relatively new cherry tomato is compact enough to grow in containers on the patio or back porch. You can just pop this plant into a container and be done with it! A great choice for small space gardens, urban balconies, and any other bright sunny setting, Sweet 'n Neat Scarlet Improved is well-branched and vigorously productive. Now, you WILL have to stake it, because it tends to set heavy loads of fruit for weeks and weeks and weeks! Start seeds indoors 5 to 6 weeks before the last frost date. Plant outdoors when danger of frost is past and night temperatures consistently remain above 13C.(7 seeds).F1 Sweet 'n' Neat Yellow: Grow the same as for Sweet 'n' Neat Cherry but this variety produces an abundant crop of small yellow tomatoes. (7 Seeds)Red Pearl: Very compact, stocky and disease resistant tomato plants producing abundant harvests of tangy sharp/sweet bright red cherry-sized fruit of approximately 15 - 20gms each. They are very good in containers on a warm patio, perfect if you don't have much room but also attractive in decorative borders as plant is small and colourful growing to 20 - 30cm. Grown extensively in China. (15 Seeds). Yellow Pearl: Similar to the Red Pearl variety. Very compact, stocky and disease resistant tomato plants producing abundant harvests of tangy sharp/sweet bright yellow cherry-sized fruit of approximately 15 - 20gms each. They are very good in containers on a warm patio, perfect if you don't have much room but also attractive in decorative borders as plant is small and colourful growing to 20 - 30cm. Grown in China and frequently found growing alongside other crops. (15 Seeds)Green Agate: An unusual small variety for patio pots with fruit weighing 20 - 30g. It is an

abundant producer and the fruit is sweet and crisp. Indeterminate but growth slows considerably if the fruit is not harvested regularly (30 days to maturity). For a full list of varieties in stock please see the website at: www.walmersseeds.co.uk Also a new list of varieties available for the growing season. All products are supplied in sealed foil packets to maintain freshness and come with a 100% additional guarantee. Quality guaranteed & backed by the Research & Development Licence No. £4.89, Sheerness, 01227.
