Mens mountain bike shock wave, This is mountain bike that could be men's or boys. not sure of the size rims but they're large. It's full suspension as you can see. I can find hardly any rust and the chain and gears look pretty good and greased. All the gears work fine and it's a pretty comfortable ride. Suspension on the front shocks as well. Shimano gears. A few nicks and scratches but very useable for getting around town. Its got the kind of gears that you move with the palm of your hand - the kind that you don't have to lift your fingers or thumb to shift. £55.00, Bath,.
