ESD mat, ESD or electrostatic discharge is seen as one of the major hazards of working with electrical devices. It is impossible to control such kind of static electricity when electrical devices are involved but we can always take substantial safety measures to create a protective shield in our workplaces. ESD mat is one of the most widely used anti static product that has proven to do a good job. ESD mat by popular manufacturers like <http://www.elcomltd.com/esd-products-2/anti-static-esd-mat/> can be found in different size, thickness and make, designed specifically to serve their purpose. Such kind of mats are flexible and can be used as covers, base or wrappers for delicate electrical devices. ESD mat for floor can be spread just like a carpet and plugged into a socket and it will instantly create a protective layer in that area. Anti static mats or any such items are not an option but a necessity in every workplace where ESD is a threat to the lives of workers and devices., Leicester, 0844 884.
