This is one of the most unique investment opportunities you will come across... Swapping the busy city living for breath-taking views of the Highlands, salmon fishing in the gleaming Loch Tay waters and the blissful sound of silence, investors are being given the opportunity to own their very own room in a stunning castle set on one of Scotland's most important, privately owned historic estates.This really is an opportunity to not be missed...Units are selling fast and we know fully well why... The only comparable buildings to this castle are the Houses of Parliament in Westminster, both perfect examples of Georgian/early Victorian Gothic architecture at its best. The castle features and natural surroundings have been respectfully preserved as the estate has been brought to life as a luxury, five-star golf and spa hotel retreat. The castle hosted Queen Victoria and Prince Albert on a belated honeymoon trip to Scotland in 1842... 173 years later, the castle is still in full action!A number of luxury, en-suite hotel rooms are being offered within the walls of the castle, providing inspiring views across the entire estate. Although the restored castle has been transformed into part of a luxurious retreat, it has maintained its original features through its magnificent interior and charming decor.A few minutes drive north-east of this Scottish haven is the idyllic village of Kenmore. Edinburgh and Glasgow International Airports are the closest to the castle, providing global access to countries as far as China and the USA. Helicopter transfers can also be arranged as well as a reliable rail service from the graceful Pitlochry village.This hassle-free investment gives you the opportunity to own either an entire room or a fraction of one, as well as the choice to opt in for a minimum of 4 weeks personal usage for yourself, family and friends to enjoy!Due to the unique nature of this investment, only 8 rooms remain and will surely go before the week's end...
