£60 ono This is an HQ Opcom bought last year for £120 to diagnose our car faults. It's comes with a disc containing Vauxcom 131223D software,installation instructions and some user guides. It will do programming,keys and remote fobs,record and play back live data and much more. It was sold as running on XP,Vista,W7,W8, i can confirm that it installed and ran perfectly on my W7 32 bit netbook It cost me £120, so grab a bargain. It covers most Vauxhall Opel models from 1990 to 2014,and has Saab 9-3 ,9-5 and Chevrolet Captiva,Captive MAXX listed. If you message me,i will try to answer any.
