

We are selling our beloved Mercedes Sprinter Camper Van.
It's a 2.2TD 311CDi LWB that was converted to a 2 berth in 2005. The previous owner spent a fortune on it. I've got a lot of his receipts.

We bought the van to use for our honeymoon and took it round Europe, travelling round Spain, France and Italy covering almost 3000 miles. It did us proud and didn't miss a beat. The Idea was to sell the camper when we got back, but we kept using it for holidays and weekends away. We've since had a baby and moved to a smaller property with a small drive, so it now isn't practical.

It's got MOT to July 2016. Good tyres and has been very well maintained.

It went straight through its MOT but had some advisory's which have now all been done.

Some of the work I've had done:

- New front bottom ball joints.
- New front flexi brake hoses.
- New front Mintex brake pads.
- 4 New heater plugs and a heater plug relay.
- 4 New Continental tyres
- New 110amp Leisure battery fitted.
- New curtains custom made for the inside.
- Captain seats fitted in the front to increase space and comfort.
- 19" Digital TV to replace the Analogue one that was fitted.
- Carbon Monoxide alarm fitted.

LWB Camper Motor Home
Race Moto Cross Karting Van
<https://www.freeadsz.co.uk/x-168296-z>

Outside Light.

Lots of cupboards and storage compartments under seats.

Removable table with seating area.

Internal thermal window blinds to fit sprinter for reflecting the heat and keeping van cool."

19" Digital TV with Aerial on roof and signal booster.

Towbar and electrics.

Listed as a Motorcaravan on V5 for cheaper insurance.

The Garage:

We used the garage in the back to carry a 250cc Honda scooter, 2 mountain bikes and lots more things we didn't need to take on our trip :)

The previous owner used it for his Quad, and I was told had also had 3 motocross bikes in the back.

The garage dimensions are:

Length 2030mm

Width 1720mm

Hight 1150mm

Please leave me your phone or email and i will contact.
