Counting calories? Or maybe you just feel that your metabolism has considerably slowed down? Wake it up with a cup of delicious coffee, enhanced with zinc, chrome, L-carnitine, garcinia cambogia extract, and vitamin B. It's an excellent and most of all, safe supplement of your slimming and detoxification processes. With a proper diet and a little bit of sport it will make you feel exceptionally light. **RECOMMENDED ESPECIALLY IF YOU WISH TO:** - improve your metabolism, - stay slim, -win the fight with obesity. **INGREDIENTS:** - help keep the proper sugar blood level, - contribute to maintaining normal metabolism of macronutrients, -help keep the proper metabolism of carbohydrates, - contribute to maintaining normal metabolism of fatty acids, -add energy. HCA – hydroxycitric acid derived from the Garcinia cambogia extract is one of our coffee formula secrets. It affects the metabolism, suppresses excessive appetite, but at the same time does not cause unwanted side effects. L-CARNITINE – a natural substance that is involved in the transport of fats and helps in their burning. It is particularly recommended during exercise accompanying active weight loss. CHROME – a very valuable element that helps to maintain normal blood glucose levels and metabolism of macronutrients (protein, fat, carbohydrates). Garcinia cambogia is a plant, also known as Garcinia gummi-gutta. In the skin of the fruit, there is a large amount of a natural substance called Hydroxycitric Acid (HCA). This is the active ingredient in Garcinia Cambogia extract... that is, the substance that produces the weight loss effects. Drink two cups a day. ;
