Hi Fi Cabinet in American Cherry Hardwood (50 GBP)

Location Wales, Mid Glamorgan https://www.freeadsz.co.uk/x-169373-z

High quality Hi Fi cabinet made with American Cherry hardwood, and has a highly polished surface. While very useful, this is also a beautiful piece of furniture, made by skilled craftsmen in Ireland. This item is from their Opera range of furniture, and cost over £400 when purchased. There is storage for 24 audio tapes and 68 CD's on slide-out draws. Also storage for Hi Fi items behind left glass door, with adjustable shelf. The right side contains a draw, and storage cupboard below. Also, the top has a central divide to allow the left half to open. The cabinet is in beautiful condition. Sadly, due to moving home the item is no longer used. I need a quick sale, so selling at a ridiculously cheap price! The cabinet measures in inches: 40 wide, 20 deep, 31.
