This is my Suzuki Hyabusa that was going to be my big comfortable fast tourer for long holidays on the continent. Its clean ....really clean, the guy who had it before me must have either spent his life with a rag in his hand or it never saw a single drop of rain. All I've done since I had it is to put a tail tidy on and a rather nice set of Yoshimura Ti-oval carbon fibre cans. As well as these bits it comes with the original OE exhausts and number plate carrier. Three pieces of Krieger luggage including a tank bag all of which was only used once, paddock stand, cover, Renthall rear carrier and finally Optimate+.
