These are a pair quality turntables by Technics, model SL-BD22. They have been well used, but are still operational, and one belt was recently replaced. The strobe speed adjustment, cueing and stop functions have been checked, and all work well. The cartridges are the original Technics type, but new styli are needed, available on ebay for under £20. There are no perspex lids, and one tone arm rest does not grip the arm tightly. Would prefer to sell as a pair at £95, but would consider splitting, or try an offer! Prefer buyer collects, but the pair could be posted at the under 10kg rate of £16.
