The aim is to enable beginners with a quick and easy access to start playing and having fun with the Blues (It is assumed that you can already play a few chords and are not a total beginner, BUT If you are a total beginner to guitar I suggest you use the Beginners Guitar Link shown and start there, it is free and can also be downloaded as a free Android app from the link shown below here <http://www.appsforguitar.com/apps3.html> ) Learn, experiment and master each section well before moving on A little bit of knowledge, practicing the right things and a lot of feel can go a long way It's not how much you know but how well you play/use the little that you do know You will find Diagrams, Videos, Tabs, Picture and Audio plus there are links here to a lot of the other Different Modules I have created to help you along the way Do not rush any section, take your time perfect each section and Module before moving on and you will find you will succeed.
