## WASHING MACHINE AS NEW so no soap sud day blues (150 GBP)

Location **Wales, Gwent** https://www.freeadsz.co.uk/x-171671-z

WASHING machine as new Used half a dozen times only. We moved home so brought the nice machine with us only to find there was one already here. I was going to keep this as a spare, 'just in case' however on using and looking very closely to this machine it would be pointless to keep the one we brought with us as a spare. Could be a very very long time before it was needed, hence my nearly new one will have to go, Full instructions with the book on how to use it. I have to say used as it was five or six times.
