

# PatioDrivewayConservatory cleaning

Location **North, Cheshire**  
<https://www.freeadsz.co.uk/x-171797-z>

Using high pressure jetting system we are able to remove most dirt and moss from almost every hard surface within your garden. This has proved most efficient on garden fence panels, thus enabling you to re-stain in protective coating such as Cuprinol, Ronseal etc. When you consider the cost of fence panels these days this can prove very cost effective. Patios and decking can be cleaned and ready for those summer get together. Brick and concrete walls that surround your property can also be re-vamped and prepared for re-painting; this usually gives a fresh look to the front of property and enhances the initial look of your property, always a good impression for those potential buyers if you're selling property. Almost every piece of garden furniture is based on the durability of being able to be cleaned. We can really liven up that drab old moss covered garden furniture and give it a new lease of life. Conservatories often get dirty and tired looking, why not give it a fresh look and a thorough clean, get the rotten old leaves that build up in the gutters quickly removed, and the windows cleaned. Got the caravan or motor home in the drive and realise it's got a little messy whilst stored over the winter, why not have it power washed and waxed, giving it the sparkle fit for the summer break. We also clean stables, car parks, trucks and buses, septic tanks, no job too small or large. We are always able to give a realistic quote for any job that you may require, even some quirky ones you may not think possible. Give us a call and see if we can be of assistance.
