Stunning aviation art print by world renowned aviation artist, Nicholas Trudgian.

Original pencil signatures by the artist and US fighter pilots Lt Col. Clark W. Clemens and Capt. Wayne L. Coleman of the 78th FG USAAF.

This is print is number 254 of a long since sold out limited edition of 550.

This individual print also comes with an extra original pencil signature, which is by Group Captain Thomas Dalton-Morgan, DSO, DFC & Bar, OBE; who was a famous WW2 fighter pilot of the RAF but also was assigned to the USAAF 4th FG during the war.

Very few, if any (?), of the prints in this edition also include Group Captain Dalton-Morgan's signature in addition to the two usual American pilots signatures.

This print is beautifully mounted and framed and comes with a certificate of authenticity.

Buyer pays cash on collection only - I will not post this valuable and scarce art.
