

1974 Kawasaki S3A KH (2,100 GBP)

Location **South West, Hampshire**
<https://www.freeadsz.co.uk/x-173112-z>

This bike had already been restored to a very high standard. Since then, We have registered it on an age-related plate. We have also rebuilt the top

end, including re-bore, new pistons, small ends and rings. This was 200 miles ago. We have also fitted adjustable handlebars and the gorgeous higspeed

expansion pipes. To me, these pipes look and sound amazing. Other than these modifications, the Kawasaki is totally standard. The frame and all the

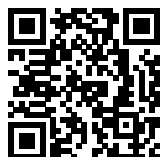

black bits are painted as they would have been in 1974. The chrome work is original although I would say that the wheels have been re-spoked. Please

look at the photos carefully, this one really is a cracker. Look at the wonderful metallic.
