Cant think what i have missed but please come and view if interested and see for yourself as is a great car

This car is one of the top diesels on the road with it turbo diesel engine which is capable of high speed and fast acceleration with ease due to its big Diesel engine but is honestly just as economical as an average 2.0l car. Never had any problems with her in the last 5 years

Obviously theres the odd age related marks on body but nothing serious and is very good for age!

Any questions or to arrange viewing please email or call
