Great car, has never let me down. I've been using this car daily for the passed few years for college, university and work both in country lanes and on main roads. I've done occasional long journeys for holidays and motorway driving. This car had never complained and has started in all weathers. I had a few new bits put on the car at its resent MOT and it now has another year until it's next one. It's not to expensive to tax (approx £140 a year) and is about £30 to fill up the tank with petrol. This car also has a radio / CD player. My little SEAT will make a perfect car for a first time driver on someone looking for a good price, local run around :). £550 (Or Nearest Offer!)
