Thanks for looking at our Audi,

Purchased the car to get us out of trouble while my van was off the road and school runs.

The pictures were taken when I got it home and gave it quick polish, unfortunately being red it has faded in places like the bumpers and tailgate so a deep polish I think would be ideal. The bumper(Plastic) has a bump in the corner I pushed what I could out but just couldn't get my whole hand up between. It does have some scratches and scuffs but when cleaned up it does still look nice.

Electric front windows, CD player.

It has a iPhone adapter which I assume was when previous owner plugged into for the music on stereo or calls?

The internal mirror has come off clip I don't want to push too hard but as I am in van most days I am used to not having one, the mirror is still there I have seen some with blu-tac holding them on but I don't really want to do that.

I was given 2 keys but they don't unlock the car from the buttons so maybe new battery ? they still unlock the imob etc and run the car.

Nice car but at the moment I am wasting money on the road tax/ insurance as the van is back on the road

and if mrs is off at weekends we take hers out more often as its a diesel
