Sparkles Cleaning is a professional cleaning company based in Coventry. We have over 10 years experience in the industry and offer domestic cleaning, weekly, fortnightly and one off cleans as well as end of tenancy. There is no contract required, therefore you can choose to have a regular cleaner, or a one off clean for a special occasion, or when things are getting a bit too much to manage on top of a busy schedule. We have lots of regular clients, but also have clients that call us for a deep clean before christmas, or when they need a bit of extra help. We offer a free quotation, where we can come to your home and discuss your requirements and budget and put together something that works for you. Each client has different requirements and things that are more of a priority than others and this can be discussed when we come to see you and we can tailor a cleaning rota specific for your household. We also ensure the same cleaner attends your property each week so they get to know your property. We can carry out the clean whilst you are in the property, or alternatively we can hold a spare key for your home and carry out the clean whilst you are out, again this is decided by the client and what they would prefer. The cost for domestic cleaning and one off clean is £10 per hour. For end of tenancy and letting agents (price on requirement) If you require a cleaner, or it is something you are thinking of and would like to discuss do not hesitate to email or call us. 07469681421
