Dear Sir or Madam, Being a Turkish national I of course speak Turkish as it is my mother tongue, but I am also a fluent speaker in English, German and Dutch, therefore an ideal candidate for the interpreting needs of companies or individuals seeking the same. I am specialised in attending or accompanying business meetings and Turkish lessons for beginners. Let me assure you that I treat all communications as confidential and will at all times be professional in manner; I do understand that some situations an Interpreter finds themselves in are of a delicate nature, therefore, I always have a reserved outlook and portray myself accordingly. You can be safe in the knowledge that I have the necessary skills and behaviour to represent you at any level. Yours,
