Essays, reports, dissertations, writing, proofreading, editing- 10 (10 GBP)

Mark (%)

In order to improve you should:

Proof-read your essay to check correct word usage and that all sources cited are included in the List of References.

Your essay would also be improved through your having provided a little more cited evidence in support of your interpretations of intervention into the 2013-14 flooding in the UK (although I recognise that the recentness of this flooding might mean that this would be a difficult task).

Other than the above points, given the limitations of the available word count, there is not much opportunity for significant improvement to this essay.
