

Corby 1700 trouser press (15 GBP)

Corby have specialised in making trouser presses since the 1930's when the company was founded in Windsor, England. Today Corby sell presses for home and hotel use throughout the world. Although there have been many technical changes since that time we have continued with the tradition of producing high quality British products. Each press is hand assembled and individually tested prior to despatch from our Andover factory.

Assembly Instructions

Please check the contents carefully and contact your supplier if any of the contents are missing or damaged. For the safety of babies and young children please dispose of all plastic bags.

Feet

Lay press on its side and slide the foot onto moulding. For stability ensure that the longest part is at the foot of the press. A sharp tap with the hand will click the foot into place. Turn the press over and repeat the procedure for the other foot. Stand press upright.

Hanger

Screw hanger bracket to back of the press, matching LOWEST hole in the bracket to the LOWER hole in the back of the press. Insert the second screw in the TOP hole. Slide hanger onto bracket until it clicks home, with the hole facing rear.

Location

East of England, Hertfordshire
