2003 Mercedes C220 2003 just failed it's mot , I want a smaller car so it's not worth it for me to spend the money on it. Needs new ball joint on rear, new bushes, couple of bulbs and a windscreen wiper. Also failed on emissions but garage think an oil and filter change will sort that. I've been quoted around £500 for all the work from my local garage who are not the cheapest. It had new ball joints on the front last mot and new injectors earlier this year. Has 4 good tyres and sadly it drives really well and does fantastic mpg on the motorway. Has some rust on doors and arches but not extensive please see pictures. Only one key. For anyone who can repair it this is a bargain or can be broken for.
