The inexpensive but very reliable Planar diesel air heaters are being used for years now, in Russia, Canada, USA and other cold areas of the world. For example in the cabs of lorries (Kamaz), buses, agricultural vehicles, cars and vans. The Planar diesel powered heaters are tested by TUV and are approved for the European market and North American market. The CE marking is provided in 2011. The test reports are available on our website. The Planar diesel powered heaters are fitted with a full installation package. For the installation in boats we have created a special installation package, with a number of required products (hull transit etc.) and is expandable with built in materials (air hoses, air vents etc.) to your requirement. Most of the materials needed for installation we can supply stock. If you are looking for something that is not listed please contact us. Most of the time we can deliver it with a short lead time.
