Here for sale is my Audi A4 cabriolet manual 6 speed diesel sports edition. She has done 142000 (just over) New clutch and dual mass flywheel fitted recently at a cost of £890 (have paperwork). Full black leather. There is a small tear down the seem (common with these) of the drivers seat. I have been brutally honest with the photos... On the drivers side I have taken photo of the side skirt, it's made from plastic and easy to replace but something i've never been that bothered about replacing as not that noticeable. On the passenger side door (much to the annoyance of my partner) I opened it and it got caught in the wind.. Not once but twice on two separate occasions. It's not bad enough to warrant a new door. There is a ticking engine noise and was advised by mechanic at halfords that it needs 1 new injector.

I have just had two new tyres put on her. Car really pulls through all the gears, roof works fine no issues. M.O.T till May nextReally is a lovely car and I will miss her but I must get a 5 door as we are expecting a baby at the end of the year. Any viewings welcome, car is in Worthing West Sussex. I have been as honest as i can, if I have missed anything/you need to know anything or want more photos just pop me a message.

Cash on collection only.

Thanks for taking the time to.
