This is 1 year old S5 in very good condition it all original box and accessories plus bump case has wireless charger system where can touch mb and it chargers. Comes with screen protector works great I love the phone but now have a s6 edge from work and paid for calls. 1 bad point the top off the phone is showing like bubble in display only on black bit at top near Samsung logo but phone function fine. All my mobiles been looked after very closely as do not take out insurance on them purchased from new I think unlocked currently using on voda. Thanks for looking and any questions please contact me. ;
